ADVANTAGES

1. Excellent performance : low pressure drop and low torque.
2. Full bore design.
3. Wedge fully encapsulated in moulded EPDM.
4. Linear sealing design provides better sealing and lower closing torque.
5. Three independant stem seals offering triple safety : PTFE dust cover protects against dirt outside and a polyamid bearing with 3 NBR O-rings protects against galvanic corrosion.
6. Operation : valve could be operated by hand wheel/head cap/worm gear/electric actuator.
